## Transportation allowance negotiations

The negotiations have not led to the signing of an agreement, but to a unilateral decision by the company. Nevertheless, thanks to the analysis of the hundreds of individual situations that you have communicated to us, the CFDT was able to obtain suitable compensation conditions for all employees.

Following discussions with management, we have arrived at the following arrangements:

### Supplementary profit-sharing

#### Information of current transportation allowance

Additional information:

From 2023, a **profit-sharing supplement** must pass to **€1,300** annual (to be received by the end of the year) instead of €1,000 today.

\* € 360 basic annual transportation allowance and  
€ 300 additional profit-sharing supplement

We have thus obtained permanent individual compensations, which will be subject to employer and employee contributions. The employee may feel that he is suffering a net loss, but this integration into the salary will have several positive effects:

In the short term, annual increase::

- Paid leave allowances
- Individual bonus
- Incentive (company bonus)
- Profit Sharing

In the long term, the improvement of your retirement pension

- CARSAT retirement insurance
- Complementary ARGIC-ARCOO
- Private SOGECAP - Art 83

We remain at your disposal to help you check that you will fully benefit from this system and to ensure that this advantage is not eroded on the occasion of your next "Salary Review" (moderation of salary increases).
